Certifications

2024
English Communication for Tech Professionals - Cousera

Objective

As a fourth-year web development student, I am actively seeking an internship to apply and expand my programming and design skills. With a strong technical foundation and a passion for learning, I am eager to contribute to the success of the team and grow professionally.

Projects

Team work Project - Quiz Web 9/2024 - Present

Github: https://github.com/trandai03/quiz_backend

Swagger: https://api.trandai03.online/swagger-ui/index.html
Team size: 3
Position: Backend Developer
Technology: HTML , CSS, Javascript, ReactJS, Java Spring Boot , MySQL, Swagger, Heroku, Redis, Flyway, JWT, Oauth2, Hibernate.
Description: Developed a web application that allows users to create, participate in, and manage quizzes across various topics. The application features user authentication, quiz creation, automatic grading, and leaderboard functionality.
My Responsibilities:
- Developed RESTful APIs for quiz and competition creation, question management, and result processing using Spring Boot.
- Authentication and authorisation with Spring Security, JWT.
- Integrated Google login via OAuth2, including email verification for enhanced security.
- Enabled image uploads for quizzes via Cloudinary for streamlined content management.
- Managed database migrations using Flyway to ensure smooth updates and version control.
- Integrated Redis for caching frequently accessed data to optimize performance and reduce database load.

Team work Project - Ecommerce Shop 6/2024 - 8/2024

Github: https://github.com/trandai03/ecommerce_be

Team size: 3
Position: Backend Developer
Technology: HTML, CSS, Javascript, ReactJS, Java Spring Boot, MySQL , Cloudinary, Heroku.
Description: Built a web-based e-commerce platform where users can browse, search, and purchase products. Features include product catalog management, shopping cart, order processing, and user authentication.
My Responsibilities:
- Designed and developed the backend using Spring Boot.
- Authentication and authorisation with Spring Security
- Designed REST APIs for product search, filtering, order and user management.
- Upload product image by Cloudinary.
- Deployed the application on Heroku.
