Intern Android App

I I am currently a 4th year student at Hanoi University of Natural Resources and Environment. I have studied some programming languages such as C, JAVA, KOTLIN, Python, OOP and knowledge of Android software. I hope to find an internship position to improve my skills, gain practical experience and open up opportunities for self-development in the software development industry. I look forward to having the opportunity to work with you.

Contact

Skills and knowledge

- Programming language: C, Java, Python, Kotlin
- Database: Database, Firebase, Room Database
- Api: Retrofit
- Thread: Coroutines
- OPP
- Android App: LiveData, ,ViewModel, MVVM, Lifecycle, Broadcast receiver, Fragment, UI Components, Databinding
- Language: English
- Other: Teamwork, PTS, AdobePremiere, GitHub

Personal Project

- **MOVIE INFORMATION APPLICATION**

Description :

The application gets movie information from APIs provided by themoviedb, allowing users to register for an account, view information and videos related to movies, and also save favorite movies.

Applied knowledge :

Kotlin,Firebase Athentication, Realtime Firebase, Retrofit, Picasso, Fragment, MVVM, Databinding, UI components, Navition menu

Github: https://github.com/truong2112k2/App_Film

- **NEWS PAPER READING APPLICATION**

Description :

The application gets movie information from APIs provided by Themoviedb, allowing users to register for an account, view information and videos related to movies, and also save favorite movies.

Applied knowledge :

Kotlin,Retrofit, Picasso, Database, UI components, Fragment,Databinding

Github : https://github.com/truong2112k2/Project2_AppDocBao.git

- **APPLICATION NOTES**

Description :

The application allows users to create notes and notifications in real time.

Applied knowledge :

Kotlin,Room Database, UI components,Databinding

Github : https://github.com/truong2112k2/Project3_AppNote.git

Joint Project

- **Color Book**

Description :

A coloring app with various interesting pictures, suitable for children

Main role : UI design

Member: 2

Funtion : Color picture, save picture, share picture

GitHub: https://github.com/truong2112k2/AppColorBook
