CURRICULUM VITAE

PERSONAL INFORMATION

Name: Vo Minh Phi
Address: District 5, Ho Chi Minh City, Vietnam
Cell phone: +84 399987271 (Vietnam)
E-mail Address: vominhphi2609@gmail.com
Website: https://minhphi-portfolio.my.canva.site/vo-minh-phi
Github: https://github.com/mfiiii

CAREER OBJECTIVE

Aspiring backend developer with strong foundations in C# and Python, passionate about building scalable web applications and clean architecture. Eager to contribute to innovative projects, grow within a high-performing engineering team, and develop into a senior backend engineer.

EDUCATION

Bachelor of Information Technology – Major in Data Science 2021 - 2025
Ho Chi Minh City University of Foreign Languages and Information Technology (HUFLIT)
2021 – 2025 (Expected)
Thesis: Lung cancer prediction using convolutional neural networks (CNNs)

WORK EXPERIENCE

***Backend Developer and Project - Owner**, APPVITY System Co.,Ltd* 1/2025 - Present

- Built enterprise-level backend systems using ASP.NET Core, EF Core, and SQL Server
- Implemented OData for advanced filtering, sorting, and pagination
- Integrated Redis caching and SignalR for real-time data updates
- Secured applications with JWT authentication and role-based access control
- Applied SOLID principles and common design patterns
- Conducted structured logging using Log4Net and EventHandle
- Deployed full systems via IIS and used AutoMapper for clean data mapping

PROJECTS

Employee Management System - Owner
A web-based system designed to centralize employee data, manage departments, and streamline HR operations such as tracking roles, salaries, and access levels—improving organizational efficiency.
GitHub Repo: https://github.com/mfiiii/Api-web-MVC

COVID-19 Data Visualization & Reporting - Owner
Analyzed global COVID-19 data to identify trends in cases, deaths, and vaccination rates using SQL. Created insightful dashboards to support data-driven decisions, public awareness.
GitHub Repo: https://github.com/mfiiii/CovidPortfolioProject

PROFESSIONAL SKILLS

- Programming Languages: C#, LINQ, Python
- Frameworks & Libraries: ASP.NET Core, EF Core, SignalR, AutoMapper, OData, Express.js, Log4Net
- Database Technologies: SQL Server, Redis, Stored Procedures, JSON, CTEs, Indexing
- Core Concepts: OOP, SOLID, Design Patterns (e.g., DI, Singleton), Delegates, Events
- API Development: RESTful APIs, JWT Authentication, Role-Based Authorization, API Versioning
- Python Skills: Data analysis (pandas, NumPy), data visualization (matplotlib, seaborn), scripting
- Testing & Deployment: xUnit, Moq, IIS hosting, Port binding
- Soft Skills: Problem-solving, teamwork, adaptability, clear documentation

LANGUAGES

Vietnamese: Native
English: Upper-Intermediate (TOEIC 650 – able to read documentation, write reports, and communicate in technical contexts)
